

Tree Selection for Success in the Landscape

This program will be an introduction to different types of trees for your landscape. We will discuss nutrient needs for trees, things to consider through a look at example landscapes plus tree species selection.

Join us to learn why your planting site affects the health of your trees and how to determine which trees will work best for your site. Trevor Corboy will explore soil and how it affects the available nutrients. Kim Hupman will look at trees to consider for certain site conditions and other factors to consider.

Thursday January 6th, 2022, 5:30 pm, Zoom

This program is free, but you must register to receive a link via zoom. Registration will close at 4:00pm, Jan. 6th
