Browning of Evergreens: The Insects and Mites

Conifers are a main stay in the home landscape. Although they generally require little care, they are occasionally damaged or killed by insects and spider mites in the landscape. We will cover common problems and management practices to limit their impact on these trees. Join us to find out what pest may be interested in making a home in your evergreen!

Speaker: Curtis Young, ANR Educator Van Wert County, Entomologist

Thursday January 20th, 2022, 6:30 pm, Zoom

This program is free, but you must register to receive a link via zoom.

Registration will close at 4:00pm, Jan. 20th
