Greene County Master Gardener Volunteers PRESENTS

Mysterious Moths: Why Moths Matter and How to Garden for Them

Though seldom seen due to their nocturnal nature, moths are every bit as beautiful and charismatic as their butterfly cousins. Their rôle as pollinators is essential to the survival of many of our plants, especially orchids.

Speaker: Chelsea Gottfried works as a naturalist for the Crawford Park District in north central Ohio. She is an avid native gardener and a passionate entomologist as well as the co-author of *Gardening for Moths: A Regional Guide*

Registration closes January 18th at 3:00pm.

You will receive the zoom link on the 18th after 3:00pm.
