The Secret Life of Bulbs

Each Spring, we eagerly await the colorful blooms that emerge from bulbs planted in the Fall. But what really goes on inside those spring flowering bulbs during the cold, dark winter? Is it magic?

The Program will present information about a variety of bulbs, with an emphasis on Fall-planted, Spring-flowering bulbs. There will be a demonstration of how to plant a variety of Spring-flowering bulbs in a container, decorated with a seasonal flair.

The container will be raffled to a lucky participant.

Registration Link: go.osu.edu/gcbulbs

All participants will receive the booklet
“Living Flower Arrangements” by Brent and Becky’s Bulbs
and a mixed variety of spring-flowering bulbs.
